1. Data and initial model
Data (x_i, y_i)
F_0
y_i
x_i
2. Residuals
$y_i - F_0(x_i)$
x_i
3. Tree fitted to residuals
Residuals
h_1
$h_1(x_i)$
x_i
4. Updated model
Data (x_i, y_i)
$F_1 = F_0 + \eta h_1$
$F_1(x_i)$
x_i
